EXPERIENCE

Frontend & Shopify Developer

2025 – present

Freelance / Self-Initiated

- Designed and developed a full e-commerce storefront from scratch — handling everything from Figma mockups to production-ready frontend code
- Built responsive, mobile-first layouts with clean HTML, CSS, and JavaScript
- Optimized frontend performance through image compression, code minification, and lazy loading
- Ensured cross-device compatibility and smooth user experience throughout

SEO Specialist

2023- 2025

AI Tools Corner | Gujrat, Punjab, Pakistan

- Achieved a 156% increase in organic traffic through on-page content optimization and keyword targeting
- Conducted full technical SEO audits covering site speed, crawlability, and mobile-friendliness
- Improved website architecture and internal linking to enhance search rankings

PROJECT

Full Shopify Redesign

Mike's Fitness Equipment

- Rebuilt the entire frontend of an e-commerce store — layout, typography, spacing, and visual hierarchy
- Went from Figma mockup to fully coded, responsive storefront
- Improved page speed, mobile experience, and overall UI quality
